

SAFETY PROCEDURES

Safety Health and Environmental Awareness (SHEA) CORE

Course Aim

To provide delegates with an appropriate level of knowledge, understanding and behavioural awareness with regards to workplace safety and environmental law.

This course is delivered on behalf of HSS Training by one of our trusted third-party suppliers, who are a registered EUSR-approved provider.

Who Should Attend?

The SHEA Core scheme is designed for those who require access to operational sites, both permanent and temporary, at all levels including operatives, supervisors and managers.

Certification

Successful completion of all six modules and the assessment provides SHEA Core registration, valid for 3 years.

SHEA is a CSCS Partner scheme, and successful delegates receive a CSCS-certified card for utilities work.

Agenda

Module 1: Understanding our workplace responsibilities

- Legal frameworks, workplace responsibilities and the roles of employees and employers.

Module 2: Understanding the effects of our work on the environment

- Key environmental considerations and their impact on the environment.

Module 3: Identifying and controlling risks

- Identifying and controlling risks and hazards through positive and proactive health and safety behaviours.

Module 4: Common hazards in the workplace

- Identifying common physical hazards and minimising their impact in the workplace.

Module 5: Occupational health hazards

- Understanding, identifying and minimising occupational health hazards in the workplace.

Module 6: Responding to emergencies

- Emergency response, reporting, inspection and enforcement of health and safety in the workplace.
