

Hand Arm Vibration Awareness - E-Learning

Course Aim

This course looks at how to recognise the early signs of HAVS and what to do to make sure the damage doesn't become permanent as well as covering both the employers and employees responsibility when working towards compliance with The Control of Vibration at Work Regulations 2005.

Available in over 35 languages

Our courses are machine translated* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

**Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.*

Who Should Attend?

Delegates who are exposed to vibrations regularly. Those exposed regularly are in danger of becoming a victim of effects that are accumulative, progressive, and irreversible. These effects are preventable as long as the person is trained on how to reduce harmful exposure to vibrations.

Course Duration

This is a 20 minute course.

Agenda

The course modules cover:

- What is Hand-arm Vibration?
- Understanding Your Responsibilities

Certification

Delegates will receive a HSS printable certificate in Hand Arm Vibration Awareness upon completion of the course.

This course is approved and accredited by IOSH.
