

Safety Health and Environmental Awareness (SHEA) POWER

Course Aim

To provide delegates with an appropriate level of knowledge, understanding and behavioural awareness with regards to power industry hazards, workplace safety procedures and power generation and distribution.

This course is delivered on behalf of HSS Training by one of our trusted third-party suppliers, who are a registered EUSR-approved provider.

Who Should Attend?

Our SHEA Power scheme is designed for individuals who require access to operational sites within the power industry, both permanent and temporary, at all levels including operatives, supervisors and management.

Agenda

Six modules core modules and two power industry specific modules:

- **Module 1** - Understanding our workplace responsibilities
- **Module 2** - Understanding the effects of our work on the environment
- **Module 3** - Identifying and controlling risks
- **Module 4** - Common hazards in the workplace
- **Module 5** - Occupational health hazards
- **Module 6** - Responding to emergencies
- **Module 7** - Power generation and distribution
- **Module 8** - Power industry hazards

Certification

Successful completion of all eight modules and the assessment provides EUSR SHEA Power registration, valid for 3 years.
